## District News

An array of correspondents in all principal towns and villages of central and northern Alberta keep Bulletin readers informed about district happenings. The Bulletin carries district news briefs daily.

### ESKIMO VICTORY WAS COSTLY

**SEVERE BLOW** to conference hopes of hard-driving Edmonton Eskimos football club came today with arrival home of Earl Easley, star backfielder with Stukus-coached outfit. Easley suffered broken forearm in driving tackle against Cam Miller of Winnipeg Blue Bombers last night. With arm in cast up to muscle, Earl has to be helped out by minkies who will be playing murrelets for next six weeks as Easley's star is sidelined. Victory over Bomber proved costly to Big Stuke, as Easley will likely be out for rest of season.

## TLC Dumps Seamen's Union With Heavy Anti-Red Vote

**CALGARY, Sept. 20.**—(CP)—A top-heavy vote which showed signs of a pell-mell Communist retreat, today threw the TLC out of the Canadian Seamen's Union out of the Trades and Labor Congress of Canada.

The TLC convention, which yesterday confirmed its executive's June suspension of the Seamen's Union, decided today to make the suspension permanent.

At the congress took the long-contested action against the Seamen's Union, which is a left-wing affiliate, most of its recognized kingpins in the left-wing faction either fell in line with the majority or did not vote at all.

Heaviest objection to the exclusion of the Seamen's Union came from the west coast. Unions from the area whose delegates voted against expulsion in a majority included the United Fishermen and Allied Workers of B.C., Vancouver local of the Civil Employees' Federal Union, United Brotherhood of Carpenters and Joiners, Philip and Sulphite Workers, and Vancouver Street Railwaymen.

A New Westminster local of the Brotherhood of Papermakers also favored the Seamen's Union in opposition to the TLC executive's recommendation.

There was no straight parties in the voting, some delegates from Right-wing unions voting with the Seamen's Union and some leftists voting along with the Right-wing faction.

The scattering of the usually-consistent Leftist vote added to the confusion over the stand of the Left-wingers yesterday, which invited a seeming split in their ranks.

The division came in a vote at the Trades and Labor Congress of Canada convention, in which the convention overwhelmingly upheld the executive's recommendation to expel the Seamen's Union.

On the vote, left-wing factions of the Congress, which usually travel along as a unit, split decisively.

**SURPRISE SWITCH**  
Chief spokesmen for two labor unions regarded as Left-inclined made a right-ward swing and voted for action against the Seamen's Union.

Some others held to their previous stand of backing up the Seamen's Union, which had been suspended by the TLC executive last June on charges that its officers failed to live up to union responsibilities.

Another jump to the Reds came before the vote yesterday when Herbert A. Bradley of Washington, international president of the International Chemical Workers of America, told the convention that he proposed to resign as general secretary of the 10,000-member Communist Party.

**BELIEVED LEFT**  
The chemical workers in Canada have been regarded generally as Leftist. Mr. Bradley said they were "taken care of" by the strength of anti-Communist international office.

# STOCK MARKET TO REVENUE PROVES HIGHEST IN HISTORY

## Canada's Dollar Devalued

Ten Pct. Premium Is Placed Upon American Funds

**OTTAWA, Sept. 20.**—(AP)—The Canadian dollar has been devalued 10 per cent and today is worth 90.91 U.S. cents. The pound sterling is now worth \$3.08.

This was the substance of the announcement made to a packed House of Commons by Finance Minister Douglas Abbott last night. He said the government had put a 10 per cent premium on the American dollar, making it worth \$1.10 in Canadian money, instead of putting a 10 per cent discount on the Canadian dollar.

At a press conference after his statement, Abbott also announced that the price of gold in Canada was being adjusted upward by some \$3 to \$38.50 per fine ounce.

The finance minister refused to predict what effect the devaluation would have on the cost of living or on Canadian trade.

**NO TARIFF CHANGES**  
He did say, however, that no tariff changes were contemplated.

"The government's decision will not increase the need for import restrictions," he said.

"That visitors to the United States still will be allowed to take \$100 per year out of Canada—but they will have to pay \$106 Canadian for it," Abbott said.

See "Canada Reduces"

## WHAT DEVALUATION MEANS TO CANADIANS

Wholesale producers indicate that if the U.S. exporters don't lower their prices it will mean that the Canadian consumer likely will pay higher prices for U.S. fruits and vegetables, cars and other commodities allowed across the border under Canadian import controls.

Other likelihoods of dollar devaluation:

1. The British consumer will enjoy lower prices for essential Canadian products. A government official said the U.K. will save 10 per cent in pounds on the purchase of Canadian wheat and other Canadian food products.

2. Canadian goods may find a better market in both the dollar-rich U.S. and the sterling areas which recently have been buying less from this dominion.

3. It may provide an incentive to United States tourists to visit Canada where they will obtain more for their money.

4. The \$5,000,000,000 the United States has invested in Canada may be boosted. Foreign investors may be attracted by the lower value of Canadian securities in comparison to their own.

5. It may prove tough on Canada since they will pay more Canadian dollars to meet U.S. dividends on Canadian investments.

6. Similarly, it may go hard on Canadian importers meeting American bills. Previously, they could pay for their bills at par or thereabouts. Now it means a little more than 10 per cent added cost.

7. The Canadian consumer and importer of U.K.-made goods will benefit. Goods will come into Canada at a varying lower rate. In some cases china, cars and textiles may be 10 or 20 per cent lower.

## Nearly \$19 Million Ahead of Estimates

Alberta had its biggest revenue year in history during the 12-month period ending March 31, 1949.

This is indicated in the provincial auditor's report prepared by C. K. Huckleval, CA, provincial auditor, and released today.

During the year revenue totalled \$70,445,624, an increase of \$18,770,000 over the revenue estimated before the beginning of the fiscal year.

It was Alberta's oil industry which was largely responsible for the increase in revenue. The province's oil production was valued at \$1,238,200.

Surplus funds were further boosted by petroleum and natural gas leases for \$2,700,000 into provincial coffers, and fees, rentals and royalties added another \$1,760,850.

**OVER-ALL SURPLUS**  
After capital expenditures were paid and income expenditures set aside, the province had an over-all surplus on income and capital accounts of \$7,528,200.

Surplus funds were further boosted by petroleum and natural gas leases for \$2,700,000 into provincial coffers, and fees, rentals and royalties added another \$1,760,850.

Altogether, the province disposed of the surplus by investing cash in banks and treasury branches and by purchasing investments in bonds and debentures.

**DEPOSITS, INVESTMENTS**  
Deposited in banks and treasury branches was \$2,739,182 and \$3,813,264 was invested in bonds and debentures.

Mr. Huckleval said the \$70,445,624 revenue was the highest in Alberta's history, but might be exceeded this year as oil and natural gas leases continue to bring money into government accounts.

**VARIED OUTLAY**  
Other expenditures went to land reclamation, public works, agricultural pests, irrigation and drainage districts and seed grain supplies.

Provincial marketing board, wool division, received \$3,000. The University of Alberta radio station received \$3,000.

## FOX FUR

**Time Saver Saves More Than Planned**  
It's just a matter of hours. That's what many happy and satisfied users of Bulletin want to say.

Take the case of the city man who advertised sale of a perfect fox-skin coat.

He asked that the classified ad be printed for four days.

But within three days the new Bulletin hit the streets, his fox fur was sold and many other Bulletin ads at buyers are finding out that Bulletin's ad gets results.

Phone 4211.

## Reds Fire At Ship

**YOKOHAMA, Sept. 20.**—(AP)—The Japanese government today said that the ship *Yokohama Maru* reported yesterday that north Communist Korean shore batteries last week shot at the ship's anchor.

The ton additional facilities established today reduced the number of personnel on board to 31. This figure was announced by the Canadian Red Cross.

Investigations are under way for a Canadian government inquiry into the disastrous Korean ship fire.

Supreme Court of Canada had heard a commission to hold public hearings into the cause of the ship fire, which trapped passengers as they slept at the Great Lakes cruise ship at her Toronto pier, leaving at least 119 of her 600 passengers dead and 84 missing.

A preliminary investigation already has started. The investigation, Transport Minister Lionel Cheever said yesterday in the Commons.

**SHIR JOHN ANDERSON**  
... See no war threat.

## Company Sued For 1/4 Million

Crown company, Northern Transportation Co. 1947 Ltd., is being sued for a quarter million dollars damages here.

Imperial Oil, six northern mining companies, and others filed suit at court house today following a truck accident in the city.

Statement of claim was filed as result of loss of goods owned by the companies in the goods were in possession of Northern Transportation.

The crown company is the owner of the major lake and river transport routes.

Quarter million dollars worth of materials, including \$60,000 worth of goods, were damaged in the accident.

Statement of claim was filed as result of loss of goods owned by the companies in the goods were in possession of Northern Transportation.

On the other hand, he can take a look across the Atlantic to the United Kingdom. Stuff coming from there should be cheaper.

Even at that, it's not cheaper to the extent it would have been if Canada hadn't devalued her dollar.

## Devalued Dollar Blow To Alta. Says Manning

Alberta primary producers and consumers are going to "get it in the neck" as a result of Canada's devaluation of the dollar and Britain's reduction of the pound.

This is Premier K. C. Manning's opinion, expressed today after studying the monetary reforms.

**IMPORTANT FACTS**  
In terms of Alberta this is what the devaluation will mean:

—Increase of \$40,000 on interest payments on Alberta's debt to the United States by the end of this year.

—Increase of \$300,000 on interest payments next year and for each year the 10 per cent Canadian debt valuation is in effect.

—Increase in refinance in the U.S. of Alberta which are payable there by 1951. It was the Alberta government's intention to refinance these bonds in Canada.

"We can't consider refinancing in Canada now, or we will have to pay the 10 per cent premium on the principle, as well as on the interest," Premier Manning said today.

An increase in consumer prices of goods imported to Canada from the U.S. will mean a rise in farm machinery and automobiles.

**INOPPORTUNE TIME**  
For Alberta, this is a most inopportune time to devalue the Canadian dollar to devalue the dollar.

"If this was a way to increase the value of Canadian goods in the U.S. market, it would be a good thing. But it is not a way to increase the value of Canadian goods in the U.S. market."

Reference to the British devaluation of the pound, Mr. Manning said the claim that the price of bread will be increased in Britain is "no much political eye-wash," and shook his head.

As a result of the devaluation, Britain will, in effect, pay 20 per cent more for imported raw materials, Mr. Manning pointed out.

It is also unlikely that the price of British goods sold in Canada will be very substantially reduced. More serious will be the effect of devaluation on Canadian wheat, barley and timber contracts with Great Britain.

Mr. Manning said he thought when these contracts are renewed the U.K. will be obliged to take a lower price.

## Alberta Gov't Phone System Out Of The Red

Alberta's government telephone system is out of the red. Provincial auditor's report issued today shows a \$2,000,000 surplus was transferred to the deficit account to clear the debt under which the system has operated for many years.

Operation of the phone system resulted in a \$3,000,000 surplus in 1948-49, and a replacement reserve of \$740,000 was provided.

## NEW CRIPPS DIET: EATING OWN WORDS

**LONDON, Sept. 20.**—(AP)—Now devaluation story going the rounds about Sir Stafford Cripps who devalued the pound after denying nine times that he would:

The vegetarian chancellor of the exchequer has added a new dish to his sparse diet: he's eating his own words.

At the time of the devaluation, Cripps had said: "The pound is being devalued because it is too strong."

Now, however, he is receiving a kindly pat on the head or a swift kick in the pocket book.

More than likely, the 10-per cent devaluation of the Canadian dollar amounted last night is a little of both. In any case, it all depends on which way you look at it.

**U.S. GOODS UP**  
For one thing, if Mr. Averar Canadian takes a look across the border he can see the approach of higher prices for United States goods. He won't like that.

On the other hand, he can take a look across the Atlantic to the United Kingdom. Stuff coming from there should be cheaper.

Even at that, it's not cheaper to the extent it would have been if Canada hadn't devalued her dollar.

## A LONG TIME COMING

**Gold Men Whoop It Up On Their Day to Howl**

By FORBES RHUDE  
Canadian Horse Business Editor

**TORONTO, Sept. 20.**—(CP)—For gold men, this is their day to howl.

It is the day they have looked forward to for three years, since the July of 1946 when the Canadian dollar went to par and knocked \$3.50 as excess off the world of their price.

So if they whoop it up—well, it's been a long time between whoops.

Actually, it is not clear yet just how much there is to whoop about. But there was enough of it yesterday to send the prices of Canadian gold shares to two-year highs.

This was in anticipation that the Canadian dollar would be devalued; and sure enough, last night, it was—sent back to where it was three years ago. The lost \$3.50 is restored and the mines will get \$38.50 an ounce instead of \$35. This is because the gold is bought by the United States which pays for it in American currency, which again is worth 10 per cent more than Canadian. If any one is coldly analytical to be sure, he will get out pencil and paper and try to figure out how much the rise of recent weeks and yesterday's sensational advance have already taken into consideration last night's devaluation news. Indeed, whether or not it may have more than taken it into account.

# It Happened TODAY

## Hemisphere

Latin American countries better stop slapping each other around or powerful Uncle Sam will take a strong hand in the warlike game. That's the warning from U.S. State Secretary Dean Acheson. He called on Latin America to join with the U.S. in ending "warlike turned to the broad Caribbean sea."

## Western Germany

Germany will make another try at being a democracy. At least Western Germany will give democracy and free enterprise a trial in the new government headed by Chancellor Konrad Adenauer. Right-wing party. Military allied governments will disappear. Western Germany is pretty well on its own.

## Great Britain

American entertainers and sportsmen will lose through British sterling devaluation. It is likely that devaluation will cause cancellation of proposed fight between light-heavyweight champion Freddy Mills and Joey Maxim of the United States. Dawy King will likely pay no more visits to Britain either. He received \$15,000 a week on his last tour of Britain.

## Devaluation

Britain's Labor government has really cooked its own goose with the devaluation of the pound sterling. According to Tory MP for Beverley, London, Sir Ernest Barker, "Devaluation will surely defeat the Labor government in the next election."

## Disaster

Canadian Red Cross workers were starting a three-day disaster drill near Toronto when machine-believe disaster became a reality. As a result, 100 well-trained disaster workers were on hand when the Niagara River disaster struck. Just the same, Red Cross disaster director J. R. Nairn said the organization should plan similar drills in future. The coincidence is just too frightening, he says.

## Politics

George Drew is more tranquil to the politician that he used to be before last June elections. The Canadian Tory chief was actually applauded by Liberals in parliament when he paid a gallant congratulatory visit to Prime Minister St. Laurent. Large size decided not to be a vote of confidence in the government—at least not yet.

## The Press

Japanese editors had better watch their step. A U.S. Army court has just sentenced Editor Shiro Marukita, a left-wing paper, to two years in jail for criticizing U.S. troops in Japan. British rule in Malaya and civil liberties in the United States.

## Aviation

Flying through a hurricane is like being in the inside of a revolving churn. That's the verdict of Ken Muller, New Orleans cameraman, who flew in a U.S. Navy plane through the recent Florida blow. Inside a plane a fellow feels like being aboard a runaway roller coaster, says Muller. He'll skip the next one.

## Town Planning Meet Scheduled for Tonight

City council tonight embarks on a detailed study of administrative recommendations contained in the Blaine-Spence-Deane town planning survey. Sections dealing with scrapping of the town planning commission, assumption of its duties by the city planning and development board, and establishment of a purely advisory citizens' committee, will be considered in detail.

## Army Note

All citizens interested in 26-month's future should plan to attend tonight's meeting at 8 p.m. in council chambers.

**WE SERVE TO SELL AGAIN**

# Provincial Rent Control

At least 75 percent of the people of Alberta will agree with the Montgomery branch of the Canadian Legion that the government of this province should be prepared to take over rent control.

The Legion branch has greeted news that federal control will likely be lifted on March 31 with some pretty strong emphatic advice about what will happen to rents in Edmonton when Ottawa lets go.

But these prophesies are not a bit too strong. Many rents in Edmonton, as elsewhere, are outrageous. If they are not controlled, they will swallow up the entire budget of the small-earner's man and leave him economically dead.

This is not to imply that many other rentals in Edmonton are not reasonable and fair and that a great many Edmonton landlords will not exercise moderation when the lid is off.

## Pound Devaluation Cuts Both Ways

While the devaluation of the pound sterling from \$4.03 to \$2.80 will permit Canadians to buy more from Britain, it should not be forgotten that it will also import Britons to buy less from us.

On the face of it, devaluation of British and other currencies by 30 1/2 percent and other amounts will seem to be a real attempt to restore world trade to a normal level by adjusting money to values commensurate with its actual purchasing power.

But there are many dangers attendant upon the process. Obviously, Canada, as a nation, will get the worst of it when the sterling devaluation begins to eat into Canadian imports.

The devaluation of the Canadian dollar will mitigate that situation to some extent, so far as England is concerned. But it is difficult to see how it can appreciably affect our exports to the United States since, in any event, the Americans seem to purchase from Canada only those

Albertans would be the first to protest if laxity, red tape or a general don't-care attitude deprive the province of its present \$3,000,000 a year in exports.

Yet, within a few years, Alberta's failure to proceed immediately with rat control will cost the province three times that amount.

Provincial experts who have been studying the rat problem for many years report that by 1955 at least 1,800,000 rats—two to each person in the province—will be established in Alberta.

Their further claim is that each rat destroys food and property to the value of \$10 annually has been proven time and again by research in areas where the filthy, disease-carrying animals are already established.

Right now, provincial authorities are aware that the main body of rats, moving steadily westward across Canada over the past 30 years, has reached points in Saskatchewan less than 12 miles from the Alberta border.

Yet despite the fact that an entire branch of the Alberta department of public health is devoted to fighting an intensive battle against rats, red tape prevents these experts from taking any action until

But on the whole, the pressure on the wage earner is bound to be intolerable. One can understand the viewpoint of the federal government in wishing to wait until the economy has been stabilized, the housing situation has righted itself and a uniform regulation across Canada effects a harmony in all places where it affords protection in others.

Moreover, the government desires quiet properly to gradually eliminate all such controls.

But where the shortage of accommodation persists, as in Edmonton, the emergency demands some form of control.

The provincial government, then, will sidestep a solemn obligation if it refuses Government control, in times of normal times, is always proper in crises.

## Cuts Both Ways

raw materials that are necessary to keep their factories in operation. Canada does not compete with the United States, to any serious extent, in manufactures.

What the Canadian government should wish in connection with the British devaluation is the potential development of any scheme to pay against the Canadian consumer.

In short, drastic steps should be taken to assure the Canadian consumer of the full benefit of the reduction in value of the British pound.

It will not be in the interests of the national economy if British goods are purchased 30 percent cheaper than they are 10 or 20 percent of that saving is passed on to the Canadian householder.

Such a process will defeat the purpose of the measure and impose a financial hardship upon the common man, who cannot hope for any Canadian industrial prosperity under these conditions, to defect additional money into his pockets.

rate move across the invisible boundary between the two provinces. The situation resolves itself to this: Saskatchewan has already declared itself defeated in rat warfare.

Alberta is prevented from spending money in another province regardless of the fact that a few thousand dollars allocated for rat control in Saskatchewan now would save Alberta millions within a few years.

The federal government, under whose jurisdiction an inter-provincial agreement is being worked out, has agreed to rat control of both provinces, apparently just doesn't care.

Alberta's battle against rats promises to be a long one, an intensive one, and possibly a futile one.

The two year advantage which would be afforded by an opportunity to begin the fight in Saskatchewan now could mean the difference between failure and success.

That two year advantage can be gained only by a thorough slashing of red tape, and three-action action by Alberta, Saskatchewan and federal authorities to permit Alberta's rat control program to begin right now in Saskatchewan.

By Harold L. Weir

ODDS AND ENDS

# Must Not Allow Toronto People Stuffed Shirts

While I have frequently taken my own little poke at Toronto and Toronto people for reasons of my own, I am now a member of the nation behind Mayor Hiram McCallum's appeal to the rest of Canada.

I have never seen a stuffed shirt in my life, and I am not at all sure that I shall ever see one of my daughter's.

I have to be a really good friend, in discussing this matter of Toronto because I have a few of them.

I have a daughter, a son-in-law and a grandson who are all in Toronto. Toronto and I am not afraid of the rest of the world, but I am not afraid of my daughter's.

Obviously I must exercise great care in making suggestions to the city of my birth.

So, you see, that while I would have stood up to Mayor McCallum, you, as a few years ago as he has been asked to do, that has to be for friendship, things are changed.

Having given homage to fortune, into the third generation, and having lived in Toronto, in the keeping of Toronto, in the city of my birth, I think to jeopardize their security even in the spirit of good clean fun.

Respectful babies and each strange and unpleasant ways of thinking are.

Always Friendly

There are things about Toronto thatirk me, as theyirk everyone else. I am a little bit of a snob, but I am not a snob. I am a little bit of a snob, but I am not a snob. I am a little bit of a snob, but I am not a snob.

Times Change

Of course, times and customs have changed since I stepped across the city line for the first time in the days of my infancy and now on my periodic visits to Toronto, I am regaled with colorful tales of the city's life.

There are no more Main's Points and no more Main's Points and no more Main's Points and no more Main's Points.

There are no more Main's Points and no more Main's Points and no more Main's Points and no more Main's Points.

# Life's Darkest Moment

By Webster

COOPER'S GIFT IN THE WAY OF INVENTION WAS NOT A RICH ENDOWMENT; BUT SUCH AS IT WAS HE LIKED TO WORK IT. HE WAS PLEASED WITH THE EFFECTS, AND INDEED HE DID SOME QUITE SWEET THINGS WITH IT. IN HIS LITTLE BOX OF STAGE PROPERTIES HE KEPT SIX OR EIGHT GUNNING DEVICES, TRICKS, ARTIFICES FOR HIS SHARPSHOTS AND WOODSMEN. DECENE, AND CIRCUMVENT EACH OTHER WITH AND THE WAY OF NEVER HAPPY AS WAS WORKING THESE INNOCENT THINGS AND SEEING THEM GO.

A FAVORITE ONE WAS TO MAKE A MOCCASIN PERSON TREAD IN THE TRACKS OF THE MOCCASIN, ENEMY, AND THUS HIDE HIS OWN TRAIL. COOPER WORE OUT BARRELS AND BARRELS OF MOCCASINS IN WORKING THAT TRICK. ANOTHER STAGE-PROPERTY THAT HE PULLED OUT OF HIS BOX FREQUENTLY WAS HIS BROKEN TWIG. IT IS A RESTFUL CHAPTER IN ANY BOOK OF HIS WHEN SOMEBODY DOESN'T STEP ON A DRY TWIG AND ALARM ALL THE REDS AND WHITES FOR THE HUNDRED YARDS AROUND—THERE MAY BE A HUNDRED HANDIER THINGS TO STEP ON, BUT THAT WOULDN'T SATISFY COOPER. COOPER REQUIRES HIM TO TURN OUT AND FIND A DRY TWIG; AND IF HE CAN'T DO IT, GO AND BORROW ONE. IN FACT, THE LEATHER STOCKING SERIES OUGHT TO HAVE BEEN CALLED "THE BROKEN TWIG SERIES."

THE BOY WHO LIKED FEMININE COOPERS AND STORIES OF MARK TWAIN'S OPINION OF THEM

Box 176, Yellowknife, N.W.T.

## Oil And Farming

Editor, Bulletin—One of your better correspondents says some provocative things about the relationship between oil and agriculture in your great province, and between both and a greater Canada.

Undoubtedly the eyes of the industrial world are upon Alberta's expanding oil resources.

One of the farm editors in pointing to the possibility of increased oil use, or per cent yield of the soil, quotes an American expert on the subject.

# Stan Ross Controls Menace

## Free Development

Are there too many controls that thwart private enterprise to the point where the term "enterprise" now means very little?

Is there too great a tendency to prohibit everyone who wants to do anything where no one is allowed to offer anything?

This is a very controversial issue and there are, many who will insist I am advancing a selfish backward view.

Yet the fact remains that we do curb private enterprise at the expense of the public.

At the moment, there is much being said about Sunday milk deliveries. Yet if the dairies were to deliver milk on Sunday, it would be a great improvement.

It would mean that the government agency prevents them from doing so and it does that because it wants to prevent them from obtaining any advantage over those who do not want to provide that service.

Why Not A Choice

We still have far too much difficulty regarding filling in the many things that we do not want to do.

This does not mean overwork for employees because the hour limit can still be applied and those wishing to remain open longer will have to obtain literature on same.

I would appreciate your please advise me where I could.

JOE CARBON.

# Labor Strife Threatens U.K. Economy

LONDON, Sept. 20. (AP)—A new threat of industrial strife and inflation hung over Britain today in the wake of Sunday's 20 per cent slash in the dollar value of the pound.

Despite government appeals to hold the line, railway workers started their first two-day strike to back their demands for a 10-shilling (£1.60) increase and it looked as if more of the same were on the way.

**PRESS ATTACK**  
On many sides the press assailed economic chief Sir Stafford Cripps and the labor government for showing no signs that government spending—and taxes—would be cut so as to give the economy more dollars and pounds for the costlier currencies that devaluation will bring.

While the British devaluation will not price goods imported to "hard currency" countries like the United States, it will also boost the cost of imports. This will mean higher prices that British must pay for bread, steel and other imported essentials.

With rising prices, government leaders are worried that working class will demand higher wages. In turn, higher wages will mean higher production costs, which will mean higher prices for the goods.

**Low Attacks Liberals**  
**Ford, U.A.W. For 'Splinter' Policy**  
**Negotiate**

DETROIT, Sept. 20. (AP)—Contract between the Ford Motor Company and the United Auto Workers Union (UAW) went ahead yesterday under a union strike threat.

At a noon recess, the UAW served notice on the company that the current contract would automatically be terminated Sept. 29 unless union demands are met.

Both sides agreed the move was equivalent to a strike notice.

The union said more than 100 days of negotiations had failed to produce satisfactory answers to either the economic or non-economic demands of the Union.

The Union today filed a motion for a restraining order to prevent the company from using the strike threat to force a settlement.

# BNA Act Changes To Be Cautious

Courts To Be Used For Major Portion Of Task

OTTAWA, Sept. 20. (CP)—The courts—solely aloof from the every-day embroilments of party politics—may be loaded with a major share of the ticklish work of rearranging Canada's constitution.

Aware that the Dominion is dotted with groups zealously watching the proposed changes in the British North America Act, the government, indicated in the British Commons yesterday that it will treat carefully along the path to constitutional maturity.

Prime Minister St. Laurent said the government is seeking to find the Canadian constitutional development, to permit, will use no legislation to force any matters which more properly should be decided in the courts.

**DOLLAR DAY DREAMS** caught up with 1-year-old Cheryl Ann Walter as she pounced pillow in San Francisco shopping center. Mom was looking for bargains at "Dollar Day" sale, but Cheryl just couldn't take it.

# Low Attacks Liberals

**Ford, U.A.W. For 'Splinter' Policy**  
**Negotiate**

DETROIT, Sept. 20. (CP)—Solon Low, Social Credit Leader, today criticized "the Liberal press" for suggestions that so-called "splinter parties" be denied recognition in the Commons.

Apparently referring to editorial urging a return to the straight two-party system of government, Mr. Low said most of his remarks in the Throne-Speech debate to criticism of the Liberal Herald and the Montreal Star.

Mr. Low said "no plaguesetter" on a newspaper should be allowed to interfere with the right of Canadians to organize a political party.

**NAMES PAPERS**  
The list of the 10-man Social Credit group from Alberta referred to "what appears to be a concerned" by the election of last year.

The Liberal press across the country, the prime minister said, is denying recognition to what they call the Conservative and CCF parties.

Mr. Low said he was "pleased" to see that those parties enjoy at the present time.

"I refer more particularly to the Liberal Herald and the Montreal Star," he said.

"By 'splinter parties,' he said, the government is referring to the Social Credit and CCF parties, although 'what the Liberals did' to the Conservative and CCF parties in the election of last June, and that they did so in the Social Credit party," he said.

"TO HIGH HEAVEN"  
When he held the provincial election, the province of Alberta last year and returned 51 Social Credit out of 57 members in the house, the Liberal Herald, together with other sections of the Liberal press across the country, shouted to high heaven that the province of Alberta was going to the dogs because what it needed most was a good strong opposition.

"After the election of last year, they turned around, and in several instances, they even went so far as to say that the province of Alberta had been saved by the Social Credit party."

"The fact that the people of Alberta had not yet said to the Liberal Herald that it had already been elected."

**Six Sought After Wreck**  
HALIFAX, N.S., Sept. 20. (CP)—Six men, including a 42-foot motor launch, were sought in the wake of a 42-foot motor launch which was wrecked Sunday night.

## ON SPORT

## It's Great To Be On A Winner

Les Edwards was talking, just minutes after 'his' Cubs had put Eskimos down for the final count to win the Big Four Baseball league crown last night at Renfrew Park.

"This is a good league, I've found out," the onetime Cotton States local right-hander was telling a newspaperman. "Really, I kinda under-rated it when I came here in the spring."

Rank and file of Cubs crowded round, bent on shaking hands with the manager, 'Ned' Grogan, Slim . . . you played swell ball all the way; he congratulated left-fielder Claviniski.

Team sponsor Frank Wolfe crashed the act. Right away he was seized by the scruff (gently, mind you) and hoisted shoulderwards by Reg Carrick and several teammates.

Photographer's bulbs flashed. The showers hissed. Players slapped each other on the backs. "Hey, who scored that game tonight?" Des O'Connor had time to ask.

Cub third-sacker figured he got all the worst of it on a ball hit through third-sacker Bill Gorette's legs in the sixth inning. The blind-men in the press-box had scored it an error.

What the ballkossers frequently forget is that over a season a fellow generally breaks even on the close ones.

## Out On The Town Tonight

Sponsor Wolfe will toss the boys a shindig tonight, after which the new champs will proceed to disband the 1950 season.

Shortstop Jack Hobbs heads back to school . . . to University of Manitoba. Ditto pitcher John McManus, only he'll be pointed for McMaster '17 in Ontario. Right-hander Al Purvis, close to a forgotten man in the last month, figures to go overseas with Waterloo Mercuys on their hockey jaunt. Future is a defenceman, plus the puck-trade with Calgary junior Buffaloes last season.

Manager Edwards . . . outfielder Barry Robertson . . . Vern Callahan . . . Clarkson . . . O'Connor . . . Doug Stewart and several others will be whereabouts for the winter, as befits natives and adopted sons.

Doug Stevenson has to report to his hockey bosses in Tacoma tomorrow.

It's been a marvellous season for the onetime doormats of the Big Four. Even John Ducey could say last night "this is a good thing for baseball around here."

From the drop of the hat Cubs knuckled down like a team determined to make up for past failures. Certainly they succeeded.

## Eskimos, Too, Will Howl

But even the Cubs, all puffed up as they are bound to be, must be glad the season is over.

It has been much too long, all things considered. First chance league managers get they mean to slash the schedule to no more than 72 games for the 1950 run to the wire. Eskimos, for instance, played 108 games this term, counted 95 in the regular season and 12 more of the playoff variety.

That's a back-breaking chore, particularly for fellows who hold down daytime jobs as well.

Most disappointed men in Edmonton late last night probably was Brant Matthews, the hotelman who backs the Eaks. However he'll keep it pretty well to himself, you can bet.

Like Frank Wolfe, agent of the Cubs, sportsman-businessman Matthews will play host tonight to his players. And that will be that for 1949.

Eaks gave a real face-lifting job before spring. Already it's in the hands of Mr. H. B. Wisnart, an outfielder, two pitchers and a catcher to the roster.

Something went out of the Eak machine this year. Maybe new blood will restore the old look.

PIRATES' SLUGGING outfielder Ralph Kiner became first player in National league history to hit 50 or more homers in season yesterday, blasting his 50th round-tripper at expense of New York Giants' Kirby Higbe. Kiner is greeted at plate by teammate Wally Westlake after recent four-bagger.

## Stamps March to Fifth Straight Football Win

REGINA, Sept. 20.—(CP)—Coach Les Lear's powerful Canadian champion Calgary Stampedeers, leaders of the Western Interprovincial Football Union, beat the second place Saskatchewan Roughriders 13-1 before a crestfallen crowd of about 7,000 fans at Taylor Field here last night.

Stampedeers, on the offensive front from the start, rolled up a 60 lead in the first quarter on a touchdown by Woody Strohmer which Vera Graham converted. They made the score 12-0 in the second quarter when guard Bert Innonne picked up a ball fumbled by Roughriders half Del Warden and dashed 40 yards for a major, which Graham also converted.

Against this onslaught Riders could manage only a single, a kick to the deadline by Ken Charlton.

Halfbacks Harry Hood and Norm Kwoon started on the attack for Stampedeers, who displayed little if any of the form which gained them a 13-1 victory over Edmonton Eskimos Saturday, found fumbles costly. In the first quarter they were pushed deep into their own territory by Stampedeers' hard-driving ground attack.

Tackle Riley (Hattiesack) Matheson blocked a kick by star rider half Ken Charlton. Strode, recovering the ball, whipped over the line for Stampedeers' first major.

Stampedeers' second touchdown came after Roy Wright converted a kick and lateralled to Warden, who fumbled, lancing, standing on the playard strip, picked up the ball and later over the line.

The third quarter was scoreless. In the fourth, Kella Spahn kicked to the deadline for Stampedeers' final point.

Stampedeers gained 138 yards rushing against only 46 for the Riders. Winners completed 20 of 34 forward passes attempted; losers completed eight in 21 attempts.

Riders had an edge in yards gained on forwards—186 compared to 144 for Stampedeers. The Saskatchewan club took to the air to a much greater extent than in its game against Eskimos.

## Bums Gain Ground On St. Lou Cardinals

NEW YORK, Sept. 20.—(UP)—Brooklyn Dodgers inched to within a game and a half of the pressure-pounded St. Louis Cardinals yesterday and a star didn't star.

Red Barber was supposed to be the finale of this National league campaign. Starting the season the right-hander second baseman, speed-baited Dodgers to the pennant. However he spent a good part of the campaign moping on the bench.

But he is a man who has pitched a no-hitter in his life. He came within an eighth of doing it in the eighth inning single of doing it again yesterday. As it was, his no-hitter gave Dodgers a 4 to 0 victory over Chicago Cubs.

It was a windfall. Brooklyn actually didn't expect to gain any ground in that ball game, for Horie Pollet was going against Philadelphia for Cardinals at night. And Pollet is one of the brightest pitching stars in the National league this season. However, the star didn't star when the vital moment came. Horie was a game and a half off first, with a doublet against the Cubs today.

It was a stroke of irony which deprived Barber of his no-hitter yesterday. Phil Cavaretta was the man who hit the line drive, and he almost left the game in the top of the eighth. He dived for a popup hit by Jackie Robinson, missed, losing all his wind as he thought they had won the game for him, but he stayed in to muck the single.

Barney hoped, as he lay out there, that they'd take him out. Barney said, "For I had a hunch if anyone was going to muck my no-hitter, it was Cavaretta."

Barney said, "For I had a hunch if anyone was going to muck my no-hitter, it was Cavaretta."

## TERRIBLE TED LEADS RBI DEPARTMENT

CHICAGO, Sept. 20.—(AP)—Ted Williams of Boston Red Sox, who led in five American league batting averages a week ago, took the lead from teammate Vern Stephens.

Through games of Saturday, Williams was the top batter with a .351 percentage; he scored the most runs, 153, made the most hits, 186, the most doubles, 30, and the most homers, 40. Drie Mitchell of Cleveland had the most triples, 25.

By J. D.

Farmers of Alberta have served official notice on the federal government that there'll be heck to pay if the Canadian Broadcasting Corporation boasts radio receiver licence fee to \$5.00.

Farmers Union of Alberta sent a lengthy protest to Minister of Transport Lionel Chevrier.

A note with interest one paragraph of the protest in which President Carl Simpkins of the FUA states:

"It would not be so bad if commercials were eliminated but there will be more commercials if the proposed increase becomes effective."

I have long marvelled over the phenomenon of radio commercials.

The weather, everybody complains about them but no one has been able to do much about them.

Down in the States they suggest the commercial in such a way that in the better programs it is practically invisible.

Radio stars like Bob Hope, Bing Crosby and Fibber McGee and Moe, who are always poking fun at the commercial programs, they take an attitude of: "We know commercials are terrible so let's be funny about them."

**STILL DEARY HERE**  
In Canada we still have to fight it. If anything, the commercials seem to be getting more obnoxious.

Take the news broadcasts for example. A siren howls, telephone clatter and a host of other noises inform the breathless listener the news is about to be broadcast.

The news is brought to you through the courtesy of the news-broadcasting company which has been faithfully and incessantly serving your community with bubbling bottles for a couple of generations.

The history of the bubbling bottle company and the bubbling story of how it got its start is a story of chemists and engineers have labored night and day through the years to produce this wonderful product.

The long-winded spiel is liberally spiked with warnings against being trapped into buying any other kind of bottle. Insist upon the bubbling bottle. The one that opens the instant you take the top off.

No fussing. No inconvenience. No need to use a hammer or screwdriver, like one must do with the inferior products of other manufacturers. Just insist on getting bubbling bottles from your dealer today.

**LOSE ALL INTEREST**  
By that time you find you've just lost all interest in the latest moves of the cold war. You don't even care whether Britain wins her struggle against austerity or not. As a matter of fact you're pretty thoroughly convinced by this time the news situation must have changed on all world fronts anyway.

And try just then and not until then that you actually get the Sport broadcasts are even more trying.

It's a hockey game you're apt to miss the most thrilling thing of the game just because the announcer decides he must get in that plug for the sponsor.

Is there anything more irritating than to have the announcer area roar of a crowd swelling above the eulogy to a new kind of hair tonic that "instantly removes all trace of dandruff?"

**Ex-Secretary Dead**  
SHIFFIELD, England, Sept. 20 (AP)—Sir William Stirling, 62, died yesterday. He was successively private secretary to David Lloyd George while the latter was prime minister.

**PROFESSOR NOT WANTED**  
The City Misses Opportunity, Declares rate Palmist

"The Man with a Million Friends" now has only 90,000. And Edmonton is "bravely tossing away" a chance to get its juvenile delinquency problem "tossed up."

That's the net result of the city license inspectors' attempt to collect a \$200 license for the "Professor" P. H. Correll for practicing palmistry and phrenology—according to the professor.

Recently arrived in town, he struck up a deal with a local estate to dispense his knowledge of the future to its patrons.

To announce his arrival he advertised through newspaper columns and inserted a sign in the cafe window.

"The Man with a Million Friends" would tell the future by the lines on patron's hands or the bumps on their noggin, said the sign.

One of the first seniors after his knowledge was a license inspector, however, who wanted to know when Professor Correll planned to visit the City block, \$200 in hand, to obtain his license.

T. S. Magee, past president of Edmonton Real Estate Association, left, with N. Winterburn who was elected president at annual meeting last night in King Edward, group heard address on civic growth from A. L. Burrows, head of Chamber of Commerce.

**TALKING** things over are T. S. Magee, past president of Edmonton Real Estate Association, left, with N. Winterburn who was elected president at annual meeting last night in King Edward, group heard address on civic growth from A. L. Burrows, head of Chamber of Commerce.

Hon. David A. Ure, minister of agriculture, today announced nine new appointments to the staffs of the Vermilion and Olds schools of agriculture.

New staff members will begin their duties October 25 when the schools reopened for the fall and winter term.

The names of the appointees are: Mrs. Florence Haglund of Waterton will teach sewing and related subjects at Vermilion and Lita Englund, a U of A home economics graduate, will teach cooking and nutrition at the Vermilion school.

Stanley W. Pettem of Saskatoon has been appointed to teach metal work at the same school. He holds a BSc degree from the University of Saskatchewan and has had eight years teaching experience in Alberta and Saskatchewan.

At the Olds School of Agriculture Mrs. E. M. Nelson, B.A., of Calgary, will teach handicrafts and home management. She is a graduate of the U of A and the Olds school of Agriculture and has trained at the Royal School of Fine Arts.

V. E. Molshberg of Bowden, a war veteran and agriculture graduate, will be a U of A was appointed instructor in field crops.

Farm mechanician instructor at Olds will be W. C. Kirk, graduate in agriculture engineering at the University of Saskatchewan and former staff member of the Chamber of Commerce high school at Red Deer.

Heaven Mendenhall, a well-known instructor in sewing, clothing and textiles at Olds, following a leave of absence during which she completed her degree at the U of A.

Motto of West Virginia is "Mountain Men" (Mountaineers always live).

**Handicraft Teacher**

## Salary List Shows City In Low Spot

Fire, Police Heads Among Lowest Survey Reveals

Edmonton's policemen and fire fighters are among the lowest paid in any large city from Winnipeg to Vancouver.

Recruits in both services start their careers at \$161 per month, and after 20 years' service their maximum salary is \$208.

Other western cities pay as much as \$251 and \$260 for policemen and fire fighters, while most pay considerably more than Edmonton, according to a survey received recently in city commissioners' office.

But chiefs of the two departments were in the same low pay category, when comparisons are made.

Police Chief Reg Jennings' salary is \$425, and Fire Chief James Macgregor's is \$326, but in other cities their police numbers are paid as much as \$370 and \$393 respectively. Vancouver and Winnipeg are paying top salaries.

Vancouver's fire chief and police chief each receive \$500 per month, while top wages for fire fighters and police constables are \$250 and \$251. Winnipeg's police chief and fire chief are paid \$370 and \$320 respectively, while top pay for other members is \$215 and \$200.

Here are salaries paid in other western cities—New Westminster, Victoria, Regina and Calgary in that order.

Police: N.W. Vic Reg Cal  
Chief \$230 \$243 \$333 \$306  
Constables \$121 \$123 \$175 \$162

Fire: N.W. Vic Reg Cal  
Chief \$340 \$410 \$410 \$465  
Fighters \$212 \$187 \$191 \$185

**Lease Land**  
City of Drumheller has leased a half-acre area for recreational and park purposes, it is announced today in the Alberta Gazette.

The land is leased under a 21-year lease, commencing on May 1, 1944, for \$1, effective from May 17, 1944.

**Pleads Guilty**  
Gordon F. Hodges, 104½ 122 street, was remanded for sentence when he pleaded guilty in police court yesterday to a charge of keeping liquor for sale.

Hodges was arrested September 11 when he was sent to a taxi driver a bottle of liquor for \$12.

**Service Club's gift to YWCA, first main building of new Lake Wabamun camp, is officially donated by Alvin Tupling, president of Rotary Club at recent ceremony. Mrs. R. B. Wishart, YWCA board of directors president, receives keys to \$2,500 building.**

**South Project Contract Is Let**  
Work will start immediately on the Big Bend tract of the St. Mary River development to bring a total of 8,000 acres of land under irrigation.

This was announced today by Hon. David A. Ure, minister of agriculture.

Larger part of the work will be done by A. A. Shannon of Didsbury at a cost of \$60,284.

The development is located near Tatum in southern Alberta. It is now in the hands of the federal government.

Completion of the proposed Edmonton-Regina pipeline would swell Edmonton's population beyond wildest dreams.

This prediction was made last night by Arthur Burrows, president of the Chamber of Commerce, at the annual meeting of the Edmonton Real Estate Association.

"Right now Edmonton is in the same stage of progress where Oklahoma was 30 years ago," he said.

**QUARTER MILLION**  
Mr. Burrows believed the city could grow in size to a quarter of a million as fast as the new accommodations could be built.

With expansion of this size Mr. Burrows outlined new services which the city would have to install as a matter of course.

"These would be first a new city hall, then an auditorium, increased transportation system, electric light and power plant."

Also city streets would have to be paved in its entirety.

All services along the line would have to be adjusted and maintained with the increased population said Mr. Burrows.

**NO LEADERSHIP**  
"Civic leaders have most of these schemes on the drawing board but lack aggressive and direct leadership," he said.

Officers elected at the meeting were N. Winterburn, president; D. Spencer, vice-president; Frank Al. Lowry, Mark Cummings, N. B. MacGregor, T. Lawrie and J. Weber, executive.

**Lloydminster Borrow \$68,000**  
Town improvements are spotlighted in the current issue of the Alberta Gazette, with Lloydminster authorized to borrow funds for extension of sewer and waterworks.

The town is borrowing \$68,000 to drill a new water well, connect the well to the main sewer and water lines, and install a new water pump.

The amount will also cover expenditures in respect of water and sewerage system improvements made last year.

The \$68,000 loan is borrowed from the government at 4 1/2 per cent interest.

**Wet Or Dry Is Question**  
Residents of the hamlet of Fort Assiniboine will take a "wet or dry" vote Oct. 12, it is announced in the current issue of the Alberta Gazette.

The plebiscite will determine whether the residents of the area wish to have beer sold in the area.

# Ambitious Plan Is Announced

By Don Flach

Ambitious program that will spark operations in four separate sections of the province and in Calgary independent. Redwater Leasehold Limited, was announced this morning by R. P. Leveque, president and managing director.

One of the operations will be a step-out program to the company's already successful well in the Campbell area about eight miles northwest of Edmonton. As soon as arrangements can be completed, it is planned to drill on tag 8-20-20W, immediately to the north of the producer.

The Campbell No. 1 well has been producing at high as 110 barrels of oil and average 50 barrels daily during the period it was operating during August.

**THREE OTHER AREAS**  
Redwater Leasehold has also been planning to develop three other areas in the Miller, Stettler and Hanna areas.

As Miller, the company has acquired a 32 per cent working interest in the 4,000 acre Imperial tract in the 110th section of the Miller-Farmstead farm and seismic anomaly lying 110 feet below the surface.

An undivided half interest has been acquired in a 2,000 acre tract in the 110th section of the Miller-Farmstead farm, lying 110 feet below the surface.

The Hanna area is being developed and a well will be started in the building where the week Northern Development Co. are contractors. Location of the first well Redwater Leasehold-Halliday No. 1 is 142 1/2 miles north of Edmonton.

**INTEREST AT STETTLER**  
An agreement has also been completed, Mr. Leveque stated, with the C. M. O. Co. to develop water Leasehold a 25 per cent interest in 400 acres just west of Stettler in section 12-20-20W.

The holding is southeast of the highly successful producer Campbell No. 2 and four and one-half miles north of Redwater Leasehold.

A continuous drilling program is being planned for the company.

## Wheat Board Sept. Quotes

WINNIPEG, Sept. 20.—(CP)—Wheat Board quotations for local and lakehead sales, September 20 (subject to confirmation):
